Elevate Your Home with Equitone Facades

BETTER LIFE
together, we bring buildings to life

Is your home's exterior looking a little tired? Are you dreaming of a fresh, modern look that will not only turn heads but also stand the test of time? Look no further than **BETTER LIFE Ltd**, your trusted UK distributor of **Equitone facade** materials.

Equitone is a leading name in the world of architecture and construction, renowned for its high-quality fibre cement cladding solutions. But what exactly is it, and why should you consider it for your home?

What is Equitone?

In simple terms, Equitone is a through-coloured facade material, meaning the colour runs throughout the entire panel. This innovative material is crafted from a composite of cement, cellulose, and minerals, resulting in a strong, durable, and visually striking finish. Each panel is unique, showcasing the raw and untreated texture of the fibre cement, giving your home a natural and sophisticated aesthetic.

The Advantages of Choosing Equitone

Equitone facades offer a multitude of benefits for any homeowner:

- **Durability:** These panels are built to last, with a life expectancy of many years. They are resistant to extreme temperatures, frost, water, and even living organisms like fungi and insects.
- **Low Maintenance:** Equitone's robust nature means it requires minimal upkeep, saving you time and money in the long run.
- **Fire Safety:** Safety is paramount, and all Equitone cladding panels boast a high fire classification, providing peace of mind for you and your family.
- **Energy Efficiency:** When installed as part of a rear-ventilated cladding system, Equitone can contribute to better insulation, potentially lowering your energy bills.
- **Sustainable Choice:** Equitone is an environmentally friendly option, with no harmful gas emissions.
- **Design Flexibility:** The possibilities are virtually endless. Equitone panels are available in large formats and can be cut to any size or shape, allowing for complete creative freedom in your home's design. They come in a wide range of colours, textures, and finishes to suit any style.

The Equitone Range

BETTER LIFE Ltd is proud to offer the entire range of Equitone Fibre Cement panels, including:

- **EQUITONE [tectiva]:** A through-coloured panel with a sanded surface and natural colour variations that come to life in different lights.
- **EQUITONE [natura]:** Offers a smooth, tactile surface that subtly reveals the texture of the fibre cement.
- **EQUITONE [linea]:** A unique 3D-shaped panel that plays with light and shadow to create a dynamic and ever-changing facade.
- **EQUITONE [pictura]:** Features a hard, smooth, and ultra-matt surface for a sleek and modern look.
- **EQUITONE [lunara]:** Characterised by a randomised texture reminiscent of the lunar landscape.

Why Choose BETTER LIFE Ltd?

As the UK's leading distributor of Equitone panels, **BETTER LIFE Ltd** has the expertise and product range to bring your vision to life. We are committed to providing high-quality, sustainable, and cost-effective rainscreen cladding systems.
